**STUDIO 54** Part the hair in the centre and brush out the curls to create light, bouncy waves. Create smoky eyes by using a dark eyeshadow on the outer corners and a white highlight on the inside. Nude lips ensure that the eyes remain the main focus of the face.

**CURLY SUE**

*This page:* After removing your rollers, run your hands through your hair to loosen the curls and create movement. The perfect nude face can be created by flawless foundation and by contouring the cheeks and highlighting the nose.

**BETTY BOOP**

*Opposite page:* The Fifties pin-up effect can be achieved by brushing out the hair on the sides and pinning it up. Use the hair in the front to create a curly side fringe. Gold liquid eyeliner was used to create cat's-eyes, followed by plenty of mascara. A bright matte lipstick completes the look.
