Plumas, flecos y accesorios tribales adornan prendas con las que bailar hasta el amanecer. La moda vuelve a inspirarse en el crisol de culturas del continente africano y en una de sus musas, la *top* Iman, y regresa como en sus gloriosos 80's más étnica y racial que nunca. Una travesía que nos adentra en el corazón más profundo de África y en el que la luz, los paisajes y sus vibrantes colores son protagonistas. El nuevo lujo nunca fue tan salvaje.

to give conditioner extra pol-
ish. Start with a frizz-fighting
shampoo and conditioner, but
avoid wrapping hair in a towel
turban (the rubbing triggers
fuzz). Instead, distribute a dab
of serum through sopping wet
hair with a wide-toothed comb,
then finish with a diffuser or
simply air dry. Remember, "the
more you touch, the more frizz
you'll get," says Josh. *FLARE*

Bold lips command attention – and keep it – especially when swiped with shades of vibrant fuchsia, true red and electric orange. The good news is that every skin tone can carry off vivid lipstick. The trick to finding your most flattering shade is choosing one that matches your skin's undertones. If you have fair skin, a blue-based pink looks especially striking. True reds (that are neither too blue or orange) look brilliant on those with dark skin tones, while vibrant orange really comes alive on olive skin tones (thanks to its brown undertones). Leave your eyes nearly naked to give your pout the VIP treatment.
