БЛИКИ СОЛНЦА

Морская свежесть золотого и бирюзового цвета — незаменимая вещь для жарких вечеров. В новом сезоне их выпустили, как духи, во флажках с помпой — для сверкающего неба. Вода о горах плавно — и гладко, тело и волосы засияют негритом, но сдержанно. А еще эти духи благоухают розой, бергамотом и лавандой.
