BERRY BOOST – POMEGRANATE

If reports of the health benefits of pomegranates are anything to go by, we should all be eating more of this delicious fruit. The skincare benefits are so numerous that you should slather away with as many pomegranate infusions as you can find!

Rich in zinc, iron, potassium and vitamins C and K, this little beauty booster helps replenish skin with deep hydration, protects cells against oxidative stress and improves the texture of your skin. Pomegranate-based products work by strengthening the surface of skin cells, boosting the skin's protective barrier while also repairing and regenerating the cells' deeper layers for an all round rebirth. Pomegranate also promotes micro-circulation, guards against skin cancer and protects your DNA! It's a must-have anti-ageing antioxidant.
