FEED

Nourish your mane by nurturing it with products that contain vitamin extracts essential for healthy hair growth. Vitamins A and B in avocados are known to protect and strengthen hair, as well as repair damage.

HAIR

3. INTRICATE DESIGNS/ MULTI-STYLE

Baby hair + cornrows + bantu knots = win! This FKA Twigs-inspired 'do is definitely the one. Smoothing down those fine hairs around the temple and nape allows you to play, crafting intricate designs and patterns. They're especially gorgeous when paired with these bantu knots and pigtails.

While some credited Marc Jacobs for creating "twisted mini-buns" (the social media backlash about cultural appropriation put a quick stop to that!), bantu knots are rooted in Zulu history and tradition. Today they're recognised on an international scale and worn around the globe. Black girls do indeed rock!
